Scenarios for Horsens Fjord

- Horsens Fjord
- Policy agency and **stakeholders**
- Several goals, focus on water quality
- Backcasting to develop scenarios
- Uncertainties

Scenario process: socio economic

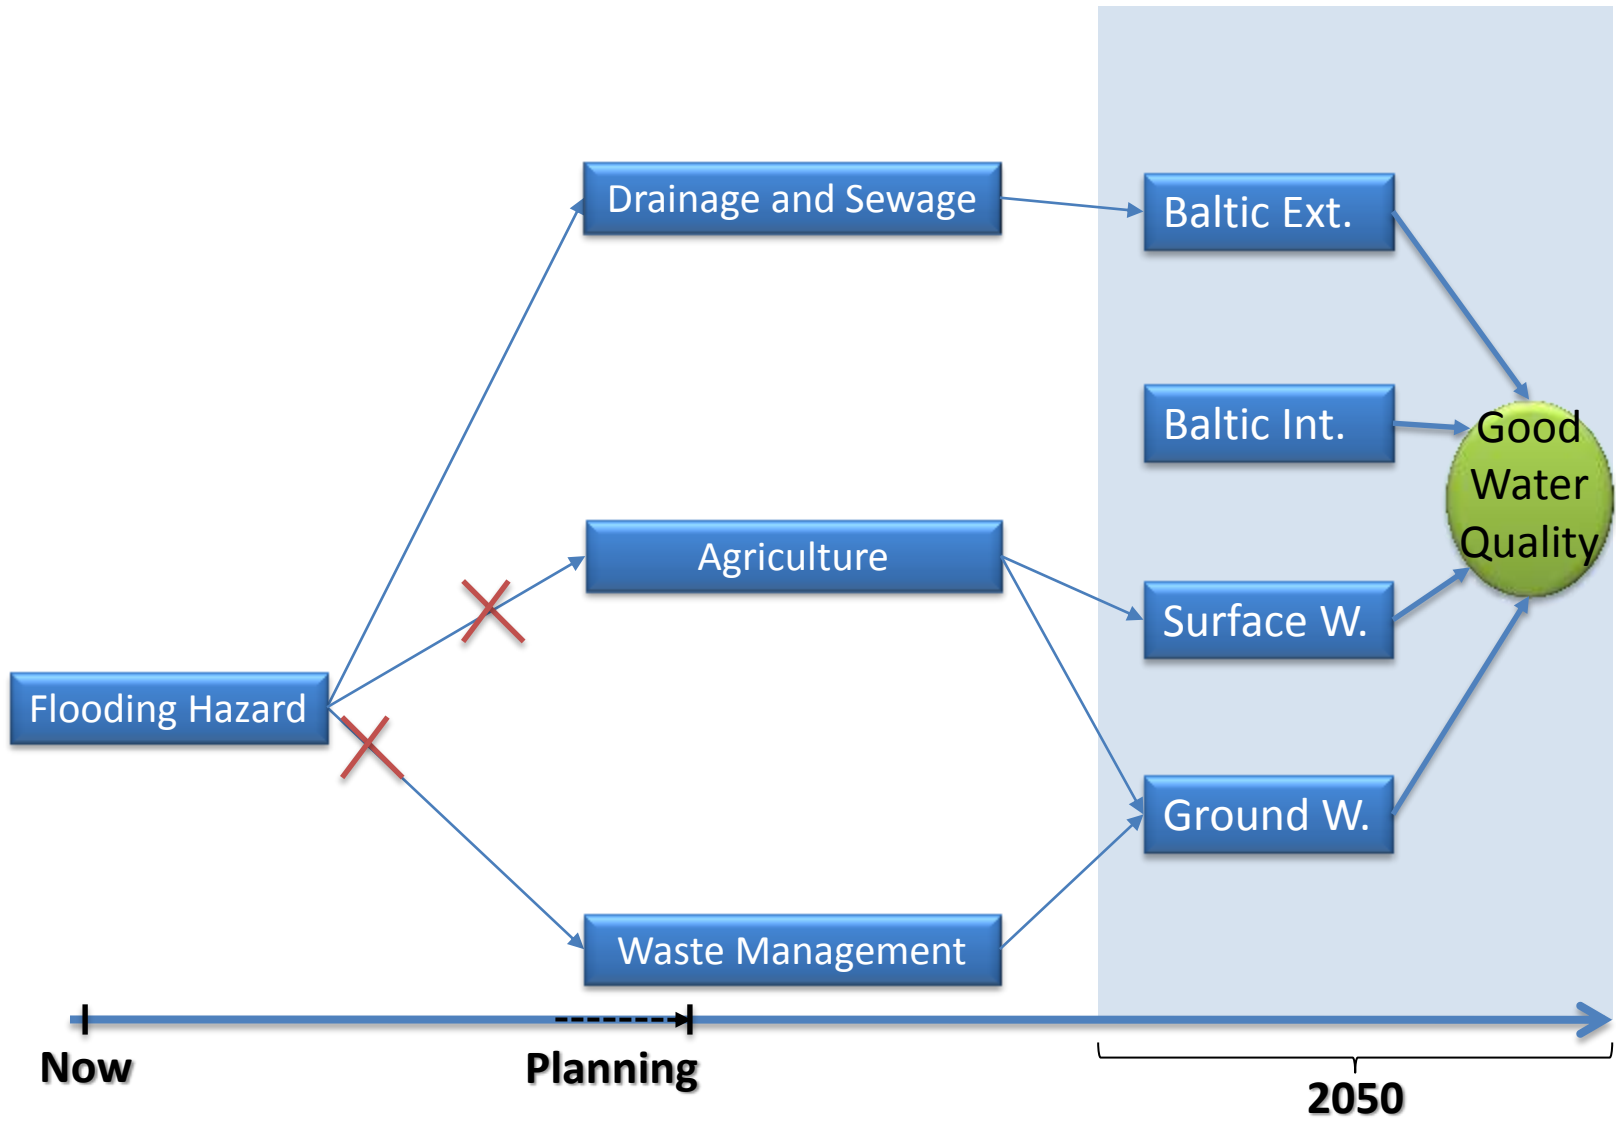

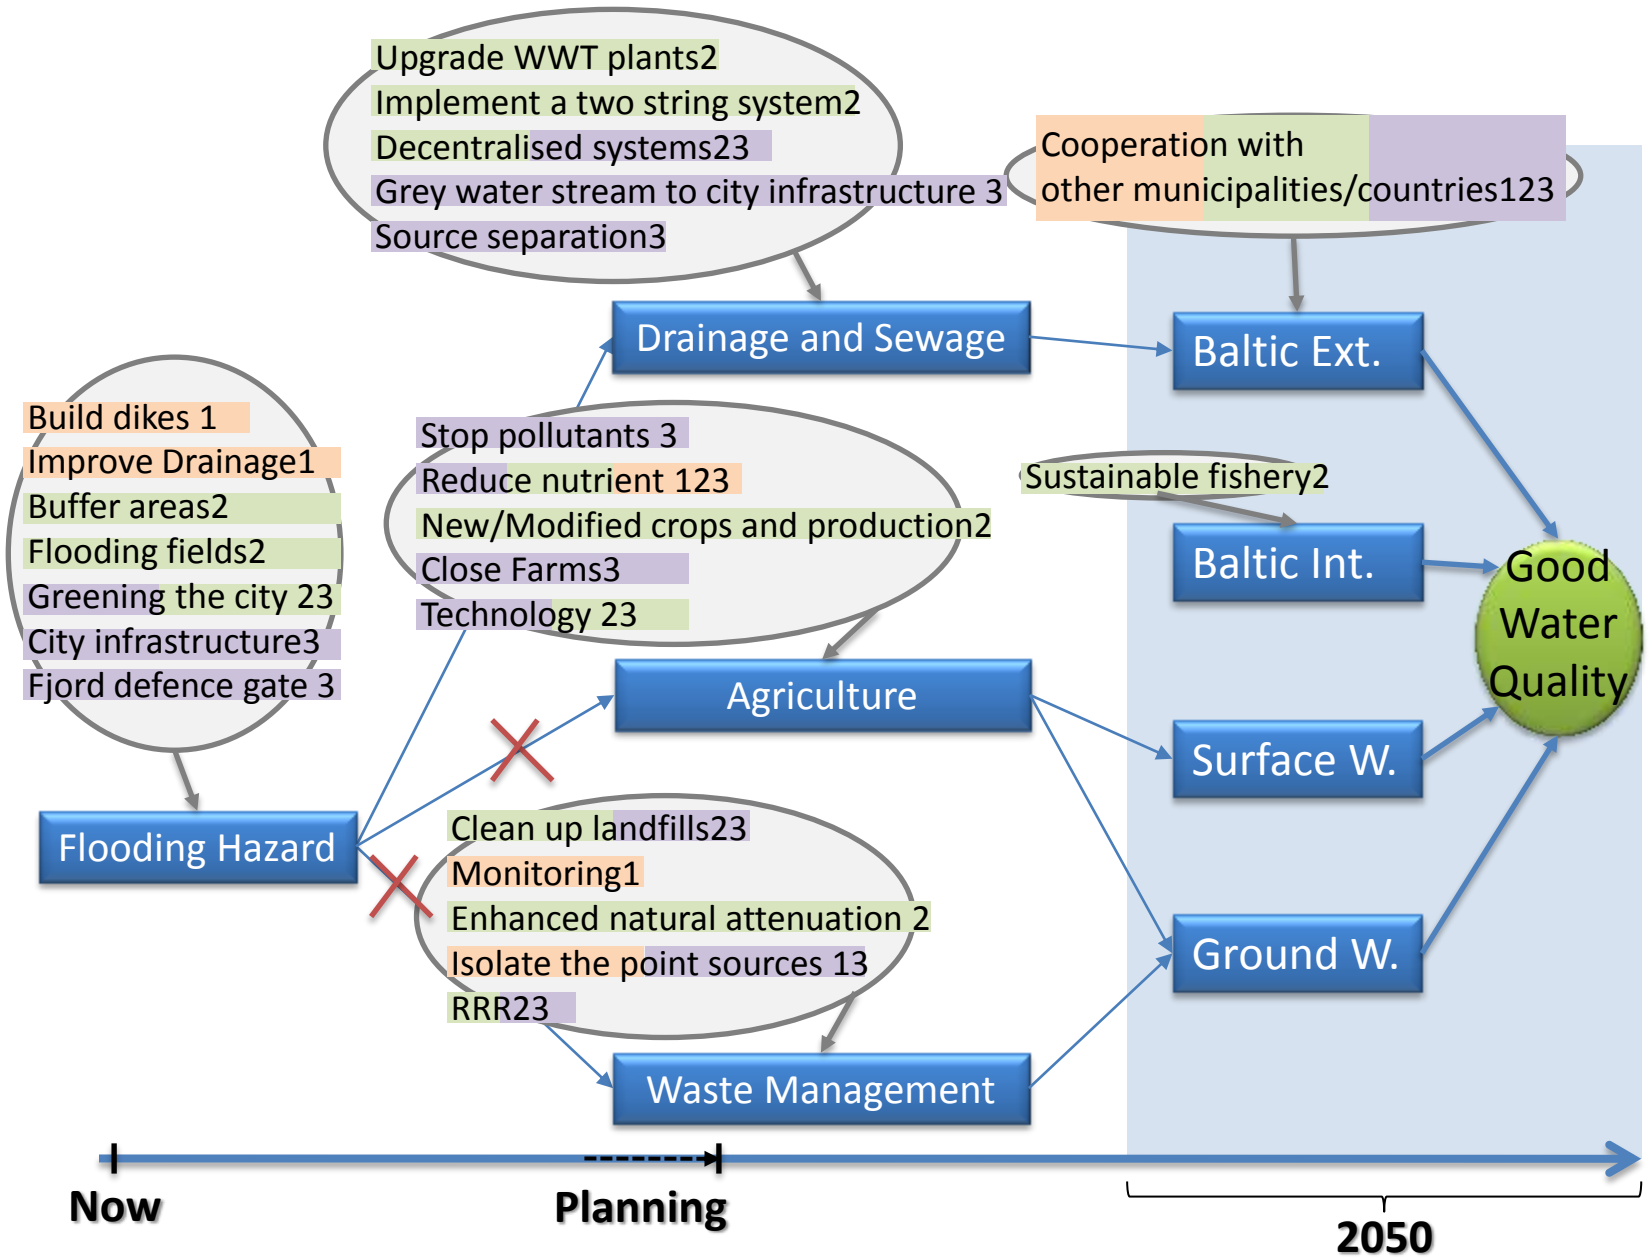

Scenario process: climate...

	Sea level	Precipitation	Wind	Temperature	Extreme events	
					Droughts	Storms
Climate 1	+++	++/--	+	++	+	+++
Climate 2	++	+	+	+		+
Climate 3	-	+/-	+++	-	++	++

... and frames

	Society 1	Society 2	Society 3
Climate 1	Frame 1	Frame 2	Frame 3

Implementation

- How to use this in a real planning process
- Robust measures
- Uncertainties
- Synergies and tradeoffs

Thank you
